

Raise Thousands of Dollars for your school with little effort and offer something parents actually want to buy!

Every year schools try to raise much needed funds through selling the same old items parents don't want or need. Now finally, **Artimus Art** has an **innovative**, new **idea** and **product**. We take all the **refrigerator art** that ends up stuffed into boxes, stored in the basement and **transform** all of it into a beautiful **hard cover book** and **web gallery** where you can **see**, **send** and **share** all that **great art**.

For busy parents, **Artimus Art.com** does all the **organizing** for you. There is **no uploading**, **downloading** or hours of parent's **time required**.

How a Fundraiser would work:

Very easy: Canvas Art Print: Art teacher collects student's best art piece and it is reproduced on Canvas. (Three canvas sizes to choose from)

Easier: Art teacher collects 24 art pieces throughout the school year. Art is collected through the school and book is distributed at school's year end art show.

Easiest: School distributes book information and Parents make their own purchases to suit their own art collection. This involves almost no work from the school.

- School collects between 15%-22% percent of all sales.
 - The higher the participation, the higher the percentage earned.
 - Fundraising packages may be custom created to fit your school.
 - Promotion code is entered during checkout to track purchases.
- *Artimus Art books and canvas prints also make great classroom projects for auctions*
